An Indian Island Autumn Walk

Join our Natural History Society on **Friday, November 14, at 1:00 pm** for an autumn walk along the path of Indian Island. We'll meet in the parking lot of the first County Park when you cross the bridge to Indian Island, just opposite the military entrance, and walk along the path to Marrowstone and back. Bring field guides, binoculars, and sturdy hiking boots and we'll see what we can find! A light drizzle if ok, but if it's raining, we'll postpone until the following Friday, November 21, at 1:00 pm.

*The clearest way
into the Universe is
through a forest
wilderness.*
John Muir

Mushroom Moment

The weather is cooling, rains have begun, and the forests are filling with fall fungi. This autumn, follow Jefferson Land Trust on Facebook (www.facebook.com/JeffersonLandTrust) for spontaneous, informal walks in the woods to see what mushrooms we can find. Are you a mushroom novice? An expert? All levels of experience are welcome! Facebook not your milieu? Just contact Caroline at crobertson@saveland.org to receive walk announcements via email or text message.

Book Club

The Natural History Society Book Club will meet on **Monday, November 17, from 3:30 to 5:00 pm** to discuss *Of Men and Mountains: The Classic Memoir of Wilderness Adventure* by William O. Douglas. RSVP to Wendy for location at JLTnatural@saveland.org. A list of past books read by the Book Club is also available on our website: <http://jltnatural.org/>.

Wendy's photos of hand with mushrooms, feather with Feather Boa seaweed, Woody Chiton on Sand Dollar and Forked leaf-tip Wood Fern.

Our Mission:

To foster active exploration, appreciation, understanding, and conservation of the diverse natural environments of the Olympic Peninsula and beyond.
